## Wireless News and Information

May 8, 2006

1. [Notice of Release of New Version of RSS-119 Issue 7](#)
2. [Receiver Submitted under RSS-GEN for Industry Canada](#)
3. [FCC Test Procedure on DFS for UII Devices](#)

---

Dear All,

We would like to send a quick note to all of you. We happily announced that we successfully completed our ISO 17025 re-assessment last week. Thank you all for your support and patience during our assessment.

Please kindly be reminded that new version of RSS-119 Issue 7 is effective since April 22, 2006. There is no transition period. As of the release of the Standard, the requirements apply. Please update your record accordingly. [<Back to Top>](#)

We also would like to remind you that for Industry Canada, receivers subject to "certification" must be submitted under RSS-GEN. RSS-210 is no longer used for receiver certification submittals. [<Back to Top>](#)

For those who are interested in the FCC process on test procedure on DFS for UII Devices, the FCC Public Notice for Comments is still pending. The FCC has not officially adopted it yet. However, if you want to see the test procedure, it is now available in FCC ECFS Systems (ET Docket-3-122) as the following site: [http://gullfoss2.fcc.gov/prod/ecfs/retrieve.cgi?native\\_or\\_pdf=pdf&id\\_document=6518332391](http://gullfoss2.fcc.gov/prod/ecfs/retrieve.cgi?native_or_pdf=pdf&id_document=6518332391) [<Back to Top>](#)

That is all for this time. We look forward to sending you message next time.

Do you have any questions? Ask our experts, send email to [sid@timco.cc](mailto:sid@timco.cc)

Best Regards,

Sid Sanders

If you want to be removed from this distribution please let us know.
