24 December 2004

SUBJECT: 3rd Memorandum Opinion & Order, 3rd Further Notice of Proposed Rule Making & Order

Hi,

This Memorandum appears to stay the January 1, 2005 deadline for 25kHz BW Transmitters in the 150-174 & 421-512MHz PLMR bands. The complete docket can be downloaded from our website, http://www.timcoengr.com/Download/FCC/FCC-04-292A1_WTDocket99_87_3rd_MOO_25kHz_Extention.pdf . It appears that the deadline is postponed until this Third MO&O is resolved. If you are involved I recommend that you read the complete text of this report.

If you want to be removed from this distribution please let me know.

Best Regards,

Sid Sanders
& Bruno Clavier
