SUBJECT: Short Term Confidentiality FCC NEWS RELEASE

Hi,

1. The FCC has released new short term confidentiality rules. You can get a copy of the Public Notice DA 04 1705 from our website, "NEW SHORT TERM CONFIDENTIALITY, DA 04 1705". This means that you can have short term confidentiality on **External Photos, Test Setup Photos, Block Diagram, Schematics, User's manual, Internal Photos, Parts List/Tune-up Procedures & Operational Description.**

The charge if you request Confidentiality will be the same as it is currently and we will do both the temporary & long term confidentiality.

There will be an additional fee if you request an extension of the temporary confidentiality.

2. Please, come and visit us at the IEEE INTERNATIONAL SYMPOSIUM ON ELECTROMAGNETIC COMPATIBILITY **August 9-13, 2004** – Santa Clara, CA. **Our BOTH # is 620.**
You will have the chance to participate in drawings, as we will be giving some **Free and Discounted** Certification reviews for FCC, IC, and Notify Body Opinion filings for new and existing customers, as well as Discounted Testing Services on your next job. We are looking forward to seeing you there.

EMC/Radio testing and TCB/NB&CAB for worldwide certification services
